E0 MDF – Availability

In keeping with the continued market trend towards lower emission products, Borg Manufacturing is pleased to announce an extended range of E0 MDF products that will be available to all customers.

Please find below our list of E0 items that will be stocked at our Oberon factory from the beginning of June 2011. Subject to volume, other items can also be made to meet E0 standards, so please inquire.

This range of items is also supported by our AFS Chain-of-Custody certification which covers our full range of raw MDF, Mouldings and Door Skins.
